**Precision is our company's philosophy.
Top quality is the result**

PARTNER OF TRADE AND INDUSTRIES

For more than five decades the company of Hofmann Glastechnik GmbH has been your reliable partner in the field of glass for laboratories, medicine and industries. As one of the biggest industrial glass blower companies in the German-speaking region, we offer customers a broad range of glass components and production technologies.

THE DEMAND WE PUT TO OURSELVES: INNOVATIVE POWER AND QUALITY WITHOUT ANY COMPROMISES!

Our range of offers is closely oriented on the requirements of the market and is characterized by reliable quality. The high demands we put to ourselves contribute to this just as much as permanent quality inspections and optimisation measures. Moreover, we can offer our customers a real added value through tailor-made special solutions. You can look forward to our competent staff, thorough counselling and reliable service.

Klaus Hofmann

GLASS COMPONENTS FOR ELECTRICAL ENGINEERING

As the leading manufacturer of glass components for X-ray tubes and photo-multipliers world-wide, we produce precision parts in a fully automated manner on PLC controlled glass lathes.

Strict quality requirements demand permanent monitoring of the individual production stages as well as 100 percent control within the entire production line.

We count renowned companies, such as e.g. Philips and Siemens, among our customers..
